

Teacher Training begins June 30th

Teacher training is more than memorizing a sequence of postures and competing to be the 'best' yogi in class. This training is an exploration to meet yourself where you are, embrace what you find and learn to use your authentic self to prosper in life. YES, your yoga practice is going to deepen in ways you didn't think possible, your fellow tt's are going to become lifelong friends and you will be an experienced and employable yoga teacher when you graduate.

BEYOGA is doing something different this Summer, this teacher training is a sacred experience and we are taking it off the mat from the start. A third of this training will be done off-site and you will have an opportunity to practice on the mat with the best of the best guides.

This is a 200hour Yoga Alliance certified training. This training is recognized internationally and will transform your practice and life. If TT calls to your spirit and this is something you have wanted to do, don't hesitate, sign up for the early bird pricing \$2,100 available through June 10th. After that the tuition is \$2,800.
