**Yoga & Meditation**– For students looking to expand their awareness and physical practice, this class is a must. Focusing on creating space in the body and opening the mind. This all-level class in 75 minutes.

**Restorative**– A practice that is all about slowing down and opening your body through passive stretching ...During the long holds of restorative yoga, however your muscles are allowed to relax deeply. It's a unique feeling because props, rather than your muscles, are used to support your body.
