

# SPA 23 SWIMMING

## Welcome back to Swimming in our Safe and Friendly Environment

 Spa 23 is dedicated to providing you with a five-star experience, including providing everyone the safest environment to learn to swim. Our immense dedication to a clean facility prior to COVID-19 has been ramped up to an even higher level of safety for all.

[USA Swimming](#): “The virus is susceptible to the disinfecting power of chlorine.”

[American Red Cross](#): “There is no evidence to suggest that COVID-19 is spread person to person via the water in environments such as pools or spas.”

[The CDC](#): “There is no evidence that the virus that causes COVID-19 can be spread to people through the water in pools, hot tubs, or water playgrounds. Additionally, proper operation of these aquatic venues and disinfection of the water (with chlorine or bromine) should inactivate the virus.”

 To keep everyone safe, Spa 23 has asked all members and guests to self-assess their health and the health of their children. If anyone is not feeling well, has a fever, shortness of breath, or any COVID-19-like symptoms, we ask that they contact us to cancel their lesson. Staff members temperatures will be taken before their shifts.

 Face masks that cover the mouth and nose are required in our facility for those not in the water and will be required for entry where recommended by state and local health authorities. Children under the age of 2 will not need to wear a mask. Swimmers will not be wearing a mask while in the water.

 Upon entry into Spa 23, everyone will be counted for building occupancy. Please check in and out at the front door. Check in and add on purchases will also occur upon entry at the front door.

 All guests are required to maintain a 6 ft physical distance from guests not of their household while in the facility. This physical distancing also applies to seating in the pool area.

 To limit the number of spectators, we require parents of children over the age of 6 wait outside Spa 23 during the lesson. You are welcome to escort your swimmer to class and to pick them up, but while the lesson is in progress, we request that you wait outside the facility. We also request that only one parent escort the swimmer to lessons to limit the number of people in our facility.

 Please note **NO** shoes will be permitted on our pool deck. Only deck shoes that are clean and not worn outside the pool area will be permitted. Bring a clean set of shoes/crocks/flip flops for use on the pool deck. All street shoes must be removed and stored outside the pool area in the cabinet provided.

 Our Family Changing area, while providing private space, will be open for changing if needed. Bathrooms in our facility are for bathroom use only, please limit changing to the changing rooms. The shower will be for rinsing showers only, no changing in the shower is permitted.

 In addition to maintaining our pool chlorine levels 50% higher than the minimum recommended level, our staff will be cleaning frequently touched surfaces between lessons with approved disinfectants. All equipment is disinfected in chlorinated water and the borrowing of caps or goggles will not be permitted.

 Our staff members will be using masks for out of the water work and full-face shields for in the water work for protection. The staff will also adhere to physical distancing with other students and staff in the pool. Close contact will only occur if your child needs hands on assistance to learn to be water safe. Skill instruction will focus on distancing student and instructor whenever possible.

 While we know that COVID-19 is a threat to our population per the CDC and WHO, we also know that water safety is paramount to the safety of your child. We are here to provide you an all-around safe environment for learning this essential life skill! More than anything we are thrilled to be back together with you and your swimmer here at Spa 23 in our pool!
